Abstract—This document is a model and instructions for ~~LaTeX~~. This and the IEEEtran.cls file define the components of your paper [title, text, heads, etc.]. *CRITICAL: Do Not Use Symbols, Special Characters, Footnotes, or Math in Paper Title or Abstract.

Index Terms—component, formatting, style, styling, insert

An appropriate title of the report /5

Abstract /10 The abstract should be one paragraph and it should cover the whole theme of the report.

I. INTRODUCTION

/10 The introduction part should introduce the topic and its importance. It should also include at least one diagram related to the topic. One page is sufficient for this section.

II. BACKGROUND/MOTIVATION

/10 Background is important to understand the topic in depth while motivation presents the importance of the topic statement of objectives; two themes identified for the report should be clearly stated. One page is sufficient for this section.

III. RELATED WORK/LITERATURE REVIEW

/15 Related work should comprise the review of current state of knowledge relevant to the topic. Comparison and contrasting between different authors/approaches should be a clear. Page length is 1 to 2.

IV. DISCUSSION/OPINION

/20 This is an important section in which the student will criticise the existing work and will present his/her own opinion about how to improve it further? This section should reflect some research insight developed by the student.

hahaha tdwtd htdwt [1].

[1] is a study. [2]

goog [2]

Identify applicable funding agency here. If none, delete this.

V. CONCLUSION

/10 In this section student will draw conclusions on the given topic. In other words, it is a brief summary about work presented in the research report. Future issues /10 This section should discuss at least two future issues on the topic.

VI. REFERENCES

/10 All references should be of peer-reviewed journal and conferences. They must be clickable in the document. Each report should include at least 6 peer-reviewed references.
