Abstract—**This document is a model and instructions for LATEX. This and the IEEEtran.cls file define the components of your paper [title, text, heads, etc.]. *CRITICAL: Do Not Use Symbols, Special Characters, Footnotes, or Math in Paper Title or Abstract.**

Index Terms—**component, formatting, style, styling, insert**

I. INTRODUCTION

This document is a model and instructions for LATEX. Please observe the conference page limits.

This is a test for BIBTEX [1].

This is another example for in-text cite: Jr [1] did an excellent work!

Li, Sun, Han, *et al.* [2] conducted a comprehensive survey on deep learning for NER.

II. EASE OF USE

A. Maintaining the Integrity of the Specifications

The IEEEtran class file is used to format your paper and style the text. All margins, column widths, line spaces, and text fonts are prescribed; please do not alter them. You may note peculiarities. For example, the head margin measures proportionately more than is customary. This measurement and others are deliberate, using specifications that anticipate your paper as one part of the entire proceedings, and not as an independent document. Please do not revise any of the current designations.
